Creativity drives us forward

Gautier
SEMENCES

OUTDOOR LETTUCE

Our professional commitment to serve the vegetable sector

KNOW-HOW & QUALITY: PRODUCING SEEDS ACCORDING TO THE BEST PRACTICES

As a seed breeder and producer, Gautier Semences markets high quality seeds, safe and healthy for high-performance vegetable farming crops. Our Quality management system ensures control and traceability of the seed-production process, compliance testing, varietal purity, germination, and sanitary analyses at every stage, from research laboratories to seed multiplication plots and to the delivery of your seeds.

We work in accordance with demanding certification standards:

- PGRP Approach (Plan to manage phytosanitary risk)
- GSPP Certification, the international preventive health system against risks of infection in tomato seed by *Clavibacter*
- Ecocert Certification for organic seeds.

**Only the taste quality
marks the lasting
success of a variety**

THE PLEASURE OF TASTE: THE ADDED VALUE OF GAUTIER SEMENCES

Improving taste has always been a major concern in our varietal breeding.

Now, the identification of genetic factors of flavours, aromas and textures enables us to select promising varieties faster to offer you ever more tasty vegetables, adapted to all the consumer trends.

RESEARCH AND VARIETAL CREATION: THE FUTURE OF THE CHAIN

Our commitment to you?

Preparing for the future and ensuring variety renewal.

At the heart of Gautier Semences, our **Research and Breeding Centre** is dedicated to R&D and innovation. Because we closely follow the evolution of our customers' sectors and associates, our Research team participate in numerous national and international projects and conduct ambitious breeding programmes. Our research approaches are determined with total independence.

Our company benefits from a multi-site experimentation network, and every year conducts over 1500 trials to select the best varieties. The Gautier Semences offer is both the fruit of great expertise in the profession of seed producer and an approach based on continuous proactive innovation.

A single priority guides our choices: responding to the challenges of the vegetable farming chain for efficient crops, today and tomorrow.

THE TRIPLE FOCUS OF OUR WORK

1: Anticipating evolutions

At Gautier Semences we use our resources and the expertise of our teams to design varieties adapted to contextual evolutions: environmental regulations, climate change, resistance to disease and bio-aggressors, cultivation techniques, distribution methods and consumer trends.

2: Proposing adapted solutions

Indoor, outdoor, off-ground, hydroponics, vertical farming, mechanised harvesting and more. We create specific varieties for your various cultivation methods, both conventional and Organic. For every production basin, for every timeframe from the earliest to the latest, you have the benefit of solutions, recommendations and advice from the teams at Gautier Semences.

3: Contributing sustainably to agricultural heritage

Gautier Semences maintains and enriches biodiversity through our work of conservative breeding of local varieties and the creation of original seeds with high added-value. We provide a unique agronomic heritage at the service of producers and the environment.

Double defense, zero compromise

OUTDOOR LETTUCE 2025

Easily identify varieties that combines
Bremia Bl:29-41EU and Fusarium Fol:1
and/or Fol:4 resistances thanks to
the two pictograms mentioned above:
INNOVATION BREMIA and FUZ CONTROL®

A continuously evolving range

Last season, the appearance of three new races of Bremia marked our sector. Again this year, downy mildew continues to progress and the IBEB-EU (International Bremia Evaluation Board for the EU) made official a new race, the BI:41EU. Its presence in certain basins raises new challenges in your choice of resistant varieties and we are here to face them.

As lettuce specialists, we constantly anticipate disease developments thanks to teams mobilized throughout the year to deliver, from the beginning of the campaign, varieties with the most complete resistance profiles.

Our Phytopathology and Breeding teams work hand in hand with our field teams to develop the varieties that will meet your needs.

In Batavias, whether you are concerned with Bremia or Fusarium, do not wonder, 7 of our varieties offer you double protection with a complete resistance package combining BI:29-41 EU and Fol:1 or Fol:4, whatever the planting slot, from spring to autumn. Find this double resistance in Little Gem, Cos, Lollo and Multileaf types.

To diversify your production and bring originality to local markets, we offer a wide range of characterful lettuces with unusual colors and shapes.

Gautier Semences is also committed to organic farming producers by offering a wide and quality range, with 32 varieties available in organic seeds.

This year again, secure your campaign with Gautier Semences, your resistance ally!

The Gautier Semences team

The logo consists of three overlapping circles in shades of red and magenta. The text "Red Crush" is written in a white, serif font, centered within the circles.

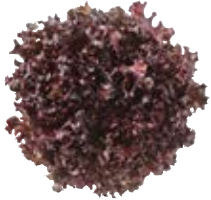

Red Crush

brochure by scanning the following QR code:

RED CRUSH®

REDIGO 3

TEMPERATE CONDITIONS

Intense colour and resistance

HR BI: 29-41EU, Nr:0

IR Fol:1

- Batavia type with red and incised leaves
- Intense red colour to the heart
- Aphid resistance

ARDENTA Er2181

HOT CONDITIONS

Colour in season

HR BI: 29-35, 37-38,40-41EU

IR LMV:1

- Intense red colour to the heart
- Attractive presentation
- Complementary to Volcana
- Good weight/volume ratio

ROSYCOS N2061

TEMPERATE CONDITIONS

The Red Crush® mini-cos

HR BI: 29-41EU, Nr:0

- Smooth and subtle red foliage
- Very light, slightly sugary taste

VOLCANA

HOT CONDITIONS

The Red Crush® little gem

HR BI: 30-32, 37-38EU

- Appealing crunchy leaves
- Upright habit
- Dense end intense red heart

REDIGO 2

TEMPERATE CONDITIONS

Full Bremia and Fusarium resistance

HR BI: 29-41EU

IR Fol:1, Fol:4

- Batavia type with red and incised leaves
- Intense red colouring tapers prettily from the edge of the leaf to the blade

BATAVIA

DALILA

COLD AND DIFFICULT CONDITIONS

New dark green batavia with resistances

HR BI: 29-41EU, Nr:0 **IR** LMV:1

- Open head batavia with an attractive presentation
- Good volume and weight for spring and autumn cycles
- Good tolerance to internal and external tip burn but also big vein

GOLEADOR

TEMPERATE CONDITIONS

Uniform and productive

HR BI: 29-41EU, Nr:0 **IR** Fol:1, Fol:4

- Curly foliage
- Medium size plant with an open head
- Nice bottom quality, with a small cutting area

GODZILLA

COLD AND DIFFICULT CONDITIONS

Volume and weight in early and late conditions

HR BI: 29-41EU, Nr:0 **IR** Fol:1, Fol:4

- Open head crop, traditional presentation
- Late filling which allows a good stability in the field
- Vigorous variety for difficult growing conditions

GOGUETA

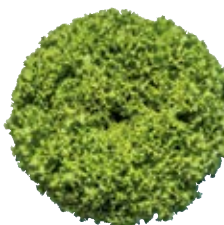

TEMPERATE CONDITIONS

Very attractive batavia

HR BI: 29-41EU, Nr:0 **IR** LMV:1, Fol:1

- Shiny and ondulated leaves
- Plant with good vigor
- Nice and medium erected base

GOTHAM

TEMPERATE CONDITIONS

A safe bet in favorable conditions

HR BI: 29-41EU

- Attractive presentation, curly leaves
- Plant with a good heart filling, well balanced, solid and easy to manipulate

Still available

**ARMADA, PALATINA,
REINE DES GLACES**

GOBLIN J1492

TEMPERATE CONDITIONS

Fresh market's selection

HR BI: 29-41EU, Nr:0

IR LMV:1, Fol:1

- Semi-opened head
- Compact plant
- Semi-erect habit with a small cutting area

GOLEM

HOT CONDITIONS

Full protection during summer

HR BI: 29-41EU, Nr:0

IR LMV:1, Fol:1, Fol:4

- Homogenous plant with an open head
- Attractive presentation with undulated foliage
- Good volume in hot conditions
- Clean and flat bottom
- Tip burn and bolting resistant

GOPACA

TEMPERATE CONDITIONS

Good bottom quality

HR BI: 29-41EU, Nr:0

IR LMV:1

- Compact plant with an open head
- Bright and wavy leaves
- Semi-erect habit, easy to harvest

GOLDORAC

HOT CONDITIONS

Our reference for hot growing conditions

HR BI: 29-41EU, Nr:0

IR Fol:1

- Open head variety with a curly foliage
- Compact plant, well balanced and easy to handle
- Early cycle with a very good resistance to tip burn and bolting

GORDINI

TEMPERATE CONDITIONS

Plasticity into the growing season

HR BI: 29-41EU, Nr:0

IR LMV:1

- Nice bottom quality
- Weight and volume
- Ideal presentation for the fresh market

GONZAGA

HOT CONDITIONS

Full resistance pack for summer

HR BI: 29-41EU, Nr:0

IR LMV:1, Fol:1, Fol:4

- Deep green colour
- Compact crop with clean and healthy bottoms
- Very good resistance to tip burn and bolting

BUTTERHEAD

CANTERBURY C3096

TEMPERATE CONDITIONS

Voluminous and compact

HR BI: 29-41EU, Nr:0 **IR** LMV:1

- Brilliant green foliage
- Compact with a semi-open head
- Good bottom quality and good volume

KILDARY

TEMPERATE CONDITIONS

Protection for mid season

HR BI: 29-40EU, Nr:0 **IR** LMV:1, Fol:1, Fol:4

- Good volume, homogenous plant
- Open head, healthy and well closed bottoms
- Good resistance to tip burn

VICARY

TEMPERATE CONDITIONS

Volume in early and late conditions

HR BI: 29-41EU Nr:0 **IR** LMV:1

- Attractive and voluminous variety
- Good balance between the head and the crown
- Healthy and closed bottoms
- Also suitable for food processing market

DAIKIRY

TEMPERATE CONDITIONS

Elegant and voluminous

HR BI: 29-41EU, Nr:0 **IR** LMV:1

- Elegant Butterhead with a bright green foliage
- Voluminous and structured plant
- Closed head, good bottom

VILANDRY

TEMPERATE CONDITIONS

More assets for your harvest

HR BI: 29-41EU, Nr:0 **IR** LMV:1

- Beautiful open head butterhead
- Flat, healthy and closed bottoms

ENCIERRO

HOT CONDITIONS

Good resistance to tip burn and bolting

HR BI: 29-41EU, Nr:0 **IR** LMV:1

- Green bright foliage
- Compact, balanced and structured plant
- Semi-erect habit which favours healthy bottoms
- Early cycle

FELICIE

TEMPERATE CONDITIONS

Equilibrated plant

HR BI: 29-40EU, Nr:0

IR LMV:1

- Nice presentation
- Nice closed bottom
- Good precocity

Still available

CHANTILLY, POMERY

FOOD PROCESSING

IBERY

COLD AND DIFFICULT CONDITIONS

Safety in cold conditions

HR BI: 29-40EU, Nr:0

IR LMV:1

- Ideal for the food industry
- Voluminous head with a good white ratio
- Plant easy to harvest
- Very good field standing ability

WOOKY C3027

TEMPERATE CONDITIONS

High yield and resistances

NEW

HR BI: 29-40EU, Nr:0

IR LMV:1

- Ideal for the food industry
- Perfect to grow in hot conditions
- Good resistance to tip burn and bolting
- Complementary to Ibery

OAKLEAF

BRIDENICE

TEMPERATE CONDITIONS

Performance in all conditions

HR BI: 29-37, 39-41EU; Nr:0 **IR** LMV:1

- Bright and blond foliage
- Structured crop with a nice volume during all the season
- Semi-erected habit which gives healthy bottoms
- Precocity and very good plasticity

LOVANICE

TEMPERATE CONDITIONS

The solution in case of fuzarium hazard

HR BI: 29-39EU, Nr:0 **IR** LMV:1, Fol:1, Fol:4

- Bright green leaves
- Voluminous and structured plant
- Healthy and clean bottom
- Good field standing ability

LADYNICE

TEMPERATE CONDITIONS

Very attractive presentation in all conditions

HR BI: 29-40EU, Nr:0 **IR** LMV:1

- Voluminous and well balanced crop
- Good precocity and plasticity
- Semi-erected habit with nice bottom

BERENICE

TEMPERATE CONDITIONS

Okleaf with an atypical presentation

- Traditionnal variety
- Atypical presentation
- Vigorous plant with long lanceolated green leaves

OLANICE

HOT CONDITIONS

Heat tolerance

HR BI: 29-37,39-41EU, Nr:0 **IR** LMV:1

- Bright blond foliage
- Structured and voluminous plant
- Tip burn and bolting resistant
- Intermediate precocity

RENARDE

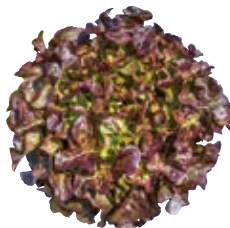

TEMPERATE CONDITIONS

Colour for season crops

HR BI: 29-41EU, Nr:0

- Bright red leaves
- Good tip burn resistance
- Good volume and bolting tolerance

CAMARDE

TEMPERATE CONDITIONS

Attractive colouration

HR BI: 29-33EU, Nr:0

IR LMV:1

- Intense, uniform red colour throughout the season
- Vigorous plant with a dense heart

BELGARDE

TEMPERATE CONDITIONS

Good filling and intense red

HR BI: 32EU, Nr:0

- Deep red colour throughout its cultivation period
- Good volume and dense heart without closing
- Nice flat base easy to harvest

ELUARDE

TEMPERATE CONDITIONS

Intense red and soft leaf

HR BI: 29-33EU, Nr:0

- Deep red, well indented soft leaves
- Compact, well closed head
- Easy to harvest

HUSSARDE

TEMPERATE CONDITIONS

Traditionnal oakleaf with an original presentation

IR LMV:1

- Original presentation
- Long lanceolated leaves, red and green
- Bolting resistant

Still available

GREEN : **PARINICE, PANISSE**

RED : **YZARDE**

LITTLE GEM

CELISTRA

TEMPERATE CONDITIONS

Quality of heart

HR BI: 29-41EU, Nr:0

IR LMV:1, Fol:1

- Plant easy to handle and trim
- Good ability to grow in difficult cold conditions
- Complementarity with Gatsbi at the start and end of the season

CADABRA E2177

TEMPERATE CONDITIONS

Ideal conformation for spring/autumn

HR BI: 29-38,40-41EU,Nr:0

IR LMV:1, Fol:1

- Intermediate green colour
- Electra type conformation
- Good volume and weight
- Easy handling for defoliation

ELECTRA

TEMPERATE CONDITIONS

A beautiful heart, flexible to use

HR BI:29-35,37-38,40-41EU, Nr:0

IR LMV:1, Fol:1

- Very versatile, stable variety with good plasticity
- Medium green colour
- Good volume and weight
- Flexible use and easy trimming
- High tolerance to tip burn and bolting

GATSBY

TEMPERATE CONDITIONS

More flexibility and security for your productions

HR BI: 29-39EU, Nr:0

IR LMV:1

- Dark green colour
- Nice heart formation
- Easy to handle and trim
- High tolerance to tip burn and bolting

DERBY

HOT CONDITIONS

High resistance to tip burn and bolting

HR BI:29,32EU, Nr:0

IR LMV:1

- Dark green variety, very bright
- Good volume
- Nice bud and heart formation
- Resistant to bolting and tip burn

Still available

GUAPI, TIGANA, SOCCA

COS

SALVADOR

COLD AND DIFFICULT CONDITIONS

Quality and resistances

HR BI: 29-41EU, Nr:0 **IR** LMV:1, Fol:1

- Open head blond cos with smooth leaves
- Complete resistance to Bremia and Fol:1
- Good volume and weight

TUDOR

TEMPERATE CONDITIONS

Full pack resistances for temperate conditions

HR BI: 29-41EU, Nr:0 **IR** LMV:1, Fol:1, Fol:4

- Green shiny leaves
- Complete resistance package
- Open head heavy plant with a nice volume

LUCIOR

COLD AND DIFFICULT CONDITIONS

Productive blond cos

HR BI:29-33, 37-38EU, Nr:0 **IR** Fol:1, Fol:4

- Excellent range of resistances
- Vigorous and early variety
- Open and heavy head

BONOR

HOT CONDITIONS

Complete protection in hot conditions

HR BI: 29-41EU, Nr:0 **IR** LMV:1, Fol:1, Fol:4

- Bright green foliage
- Compact and heavy plant
- Good resistance to tip burn and bolting
- Wide bottom

PICADOR

HOT CONDITIONS

Quality for summer harvests

HR BI: 29-39EU, Nr:0 **IR** LMV:1, Fol:1, Fol:4

- Structured plant, good vigor with open head
- Smooth blond foliage
- Good resistance to handling
- Excellent resistance to tip burn

DONADOR

HOT CONDITIONS

Elegant Cos for hot conditions

HR BI: 29-30,32,33EU **IR** LMV:1, Fol:1

- Heavy plant with an open head
- Smooth shiny leaves
- Rounded and well closed bottom
- Excellent tip burn and bolting tolerance

MINI COS & OTHER COS

ATOMICOS

COLD AND DIFFICULT CONDITIONS

Attractive and voluminous in cold conditions

HR BI: 29-35, 37-38, 40-41EU, Nr:0

IR LMV:1, Fol:1

- Medium green mini cos
- Attractive shape, closed head
- Good frost tolerance
- Leaves are easy to remove

BELICOS

TEMPERATE CONDITIONS

Resistance and high quality

HR BI: 29-41EU, Nr:0

IR LMV:1

- Big and compact heart
- Good resistance to tip burn and bolting
- Complementary to Atomikos for a complete production cycle

DULCEMIA

TEMPERATE CONDITIONS

Long heart

HR BI: 29-35, 37-38, 40-41EU, Nr:0

IR LMV:1

- Very crispy leaves and good taste
- Well formed and filled heart with high weight
- Good precocity
- Good tolerance to bolting and tip burn
- Average heart height of 15 cm

DULCITA

TEMPERATE CONDITIONS

A new taste experience

HR BI: 29-30, 32, 34, 36, 39-41EU

IR Fol:1

- Shape in size inbetween a mini cos and an iceberg
- Very soft and crunshy leaves with a spoon shape
- Compact and heavy

RED BATAVIA

RUBOISE

TEMPERATE CONDITIONS

Triple red batavia

HR BI: 29-39EU, Nr:0 IR LMV:1

- Intense dark red colour
- Curly foliage
- Open head plant with a nice volume

LAULETA

TEMPERATE CONDITIONS

Bremia fully resistant

HR BI: 29-41EU IR LMV:1

- Thick blistered leaves
- Open heart, good volume
- Semi-erected habit

VANOISE

TEMPERATE CONDITIONS

Anthocyanic batavia

IR LMV:1

- Soft and dentate leaves
- Intense red colour
- Voluminous plant with an open head

MANADE

TEMPERATE CONDITIONS

Colourful traditionnal type

HR BI: 32EU IR LMV:1, Fol:1, Fol:4

- Medium-sized plant
- Thick blistered crunchy leaves
- Bright colour, slightly anthocyanic
- Also suitable for indoor production

AMBOISE

TEMPERATE CONDITIONS

Soft leaves batavia

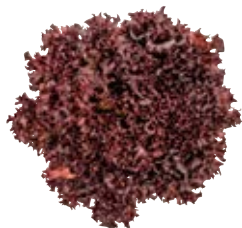

HR BI: 29,30,32-39EU, Nr:0

- Voluminous plant
- Open head
- Soft blistered leaves with a nice red colour
- Large bottoms

Still available

**CARMEN, MAGENTA,
GRENOBLOISE**

LOLLO

PACITO Sr2205

TEMPERATE CONDITIONS

Thick leaves for longer shelf life

HR BI: 29-41EU, Nr:0

IR Fol:4

- Very crispy curly leaves
- Attractive red colour
- Good weight/volume ratio

LIMONELLO Sb2190

TEMPERATE CONDITIONS

Excellent quality leaves

HR BI: 29-41EU, Nr:0

- Very crispy curly leaves
- Attractive green colour
- Good field standing ability

CARLITO

TEMPERATE CONDITIONS

Triple red lollo

HR BI: 29-41EU, Nr:0

IR Fol:1

- Very attractive foliage with an intense red colour
- Large volume and weight in cold conditions
- Fully resistant to Bremia and Fol:1

JAVELO

TEMPERATE CONDITIONS

Well balanced green lollo

HR BI: 29-33,35,37-38EU, Nr:0

- Plant with a good volume and an open head
- Well balanced blond curly leaves
- Solid base, easy to harvest
- Good resistance to handling

MATELO

TEMPERATE CONDITIONS

Intense colour

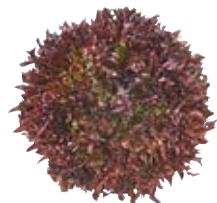

HR BI:30-32,37-38EU, Nr:0

IR LMV:1, Fol:1, Fol:4

- Lollo Rouge double red type
- Plant with brightly coloured limbs

MULTILEAF

ONIGO

TEMPERATE CONDITIONS

Incised red foliage

HR BI: 29-41EU, Nr:0

- Batavia type with incised curly leaves
- Attractive external red colour
- Adapted to hydropony

AUSSIGO Bb2163

TEMPERATE CONDITIONS

Volume and weight

HR BI: 29-41EU, Nr:0

IR LMV:1

- Incised and wavy leaves
- Good volume, good field standing
- Easy to cut and harvest

RUBYGO 2

TEMPERATE CONDITIONS

Very attractive presentation

HR BI: 29-41EU, Nr:0

IR Fol:1, Fol:4

- Batavia type with whole leaves with curled edge
- Two-tone red and green colour
- Very attractive presentation
- Good post-harvest shelf life
- Ideal variety for sandwiches

VERIGO

PRINTEMPS / AUTOMNE

Whole and crunchy leaves

HR BI: 32EU

- Whole, solid and crispy leaves with a curled edge
- Good post-harvest shelf life
- Ideal variety for sandwiches

FLORIGO

TEMPERATE CONDITIONS

Yield and resistance

HR BI: 29-41EU, Nr:0

IR LMV:1

- Batavia type with incised and curly green leaves
- Compact and solid plant

RED GEM

FATALE

ALL SEASONS

Intense red for all conditions

HR BI: 29-40EU, Nr:0

IR Fol:4

- Attractive presentation
- Smooth and red leaves
- Erected habit, healthy bottoms
- Resistant to tip burn and bolting

KETALE

ALL SEASONS

Perform in all conditions

HR BI: 29-41EU, Nr:0

IR LMV:1

- Bright red and blistered leaves
- Semi-erected habit
- Half closed head
- Earliness and plasticity

RAFALE

ALL SEASONS

Multipurpose variety

HR BI: 29-33,37-38EU, Nr:0

- Intense and uniform red foliage
- Very attractive presentation
- Structured plant with thick, fleshy leaves
- Very plastic variety that adapts to different production cycle

RIVALE

ALL SEASONS

Intense light red red gem

HR BI: 32EU

IR LMV:1

- Intense bright red colouring
- Smooth and flexible leaves
- Easy to harvest
- Good behavior in tip burn and bolting conditions
